Dear Customer,

If you are a LP_GAS user, the following letter and enclosed information is VERY IMPORTANT. Please take the time to read ALL of the information presented.

When handled wisely and with respect, LP-Gas is a safe, efficient, and clean fuel. Dean's Bulk Service Inc. has established a program to provide you with warning and safety information about propane gas. We encourage you to read the enclosed information. If you have specific questions about propane gas or our services, or if any of the items listed below are missing from this envelope, please contact Karen at 218-354-2378.

You will also need to contact us if you add or change any appliances.

This packet contains the following safety materials:

1. Safety & Warning Information
2. Leak Check and System Inspection
3. Out of Gas Policy
4. Tank Lease

*A leak check will be done anytime there is an interruption of gas service.
