Customer Name : _____

Please check the “yes” box below if you want to be set up on the Keep Full program, or the “no box if you would rather give us a call when your tank reaches about 30%.

- Yes please set me up on your Keep Full Program. This program calculates degree days between each fill and schedules the next fill. A computer print out tells us when to fill your tank. Please help us keep an eye on your tank for a couple of fills until the computer has the degree days calculated. It is also important to let us know of any changes that could affect your consumption. We cannot calculate accurately for backup systems and fireplaces because usage will never be the same, you will have to help keep an eye on your tank.
- No, I do not wish to be set up on the Keep Full Program. I will contact Dean's Bulk Service Inc. when my tank reaches about 30%.

Signature

Date

If you checked yes, please keep in mind that this does not mean that we will keep your tank full, however we will fill your tank when we are in the area and also when your name comes up on our degree day list and a billing will be sent to you in the mail. **We are not responsible for run outs.**
